The complex block features a green grass background at the top. Below it is a row of three images: a red trimmer head in a field, a gold award trophy with the text "ATTACHMENT/ACCESSORY PRODUCT POWER EQUIPMENT TRADE Dealer's Choice Awards 2006 NOAH MOWING SYSTEM", and a close-up of a trimmer head. Below the images is a black banner with white and green text. At the bottom is a green banner with the "VORCUT" logo and "TRIMMER TECHNOLOGY" text, and the website address.

## Trim While You Mow

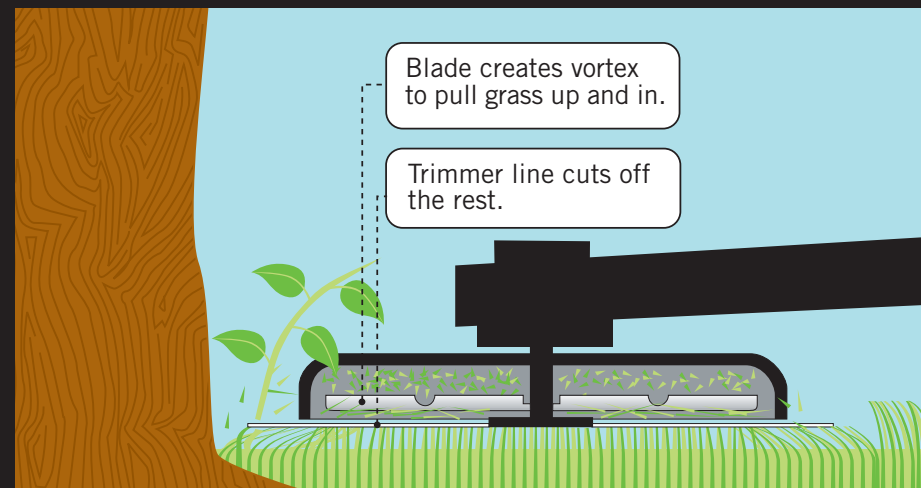

Imagine how much time and money you could save if your current equipment did the trimming while you mow.

Noah Mowing System is a revolutionary, cost and labor saving attachment engineered for mid-mount commercial mowers. The multi-patented, award-winning system allows for the operator to mow around, under, between and along obstacles found in the mowing path.

The system mounts on the left corner of the main mowing deck and allows the trimming head to float up and down with the contour. As one approaches an obstacle, the rubber bumper rolls and swings, reducing the damage while it trims the grass around the obstacle. The Vorcut Trimmer Technology combines a high lift steel blade with a three string trimmer head using up to .170 trimmer line.

The high lift blade 'sucks' the grass up and inward while the trimmer line cuts the grass off, eliminating most hand trimming.

## REVOLUTIONIZE *Your Operation*

### Noah SR16 Mowing Attachment with Vorcut Trimmer Technology

- 1 16" rolling, swinging and floating trimming attachment
- 2 16" high lift blade for suction with a three string trimmer head
- 3 Single belt drive, constant double spring tensioner
- 4 Quick H.O.C. change, single pin adjuster
- 5 Sealed bearings on main pivot, idler arm, caster yoke pivot, and main spindle bearings
- 6 Unique caster tension adjustment, eliminates caster spin
- 7 Folds for transport and storage
- 8 Simple, first time installation – in most cases no longer than 30 minutes
- 9 Optional dual wheel

Noah Mowing System offers mount and drive kits for many mid-mount zero turn mowers including:

- Exmark
- Cub Cadet
- Simplicity
- Steiner
- Dixie Chopper
- Kubota
- Toro
- Scag
- Ferris
- Grasshopper
- Bob Cat

If you do not see your brand listed, please contact us to see if we can provide you with the proper mount for your equipment.

Due to manufacturer changes, we will need your model and serial number to determine the proper mount and drive kit.

## Customer Comments

- The ability to mow next to the monuments and reduce the trimming time, what an asset!  
*-Kettering, Ohio*
- Noah Mowing System has reduced the wear on our mower decks as well as the damage to the markers.  
*-Columbus, Ohio*
- Our early time study shows a 50% reduction in our trim time which allows extra time for other jobs and reduces the payroll.  
*-Toledo, Ohio*
- Our employees were able to learn how to use the Noah Mowing System in less than a week.  
*-Duncan Falls, Ohio*
